

CHRISTINE  
HAMORI  
COSMETIC SURGERY + SKIN SPA

When considering a skin care treatment, don't you owe it to yourself to choose the very best? **Christine Hamori Cosmetic Surgery + Skin Spa** is a physician-supervised medical spa facility using the latest treatments and techniques to ensure your satisfaction, safety, and desired results. In addition to physician supervision by a board-certified plastic surgeon, our staff includes a registered nurse, licensed aesthetician, and certified IPL technicians. Our clinical, office and waiting areas are designed for your comfort and convenience. We're proud of our facility — please come in and meet our staff and take a look around!

Also, please take advantage of our **complimentary skin care evaluation** with an aesthetician who can recommend the best treatments for your particular skin type and needs... for the best you can be.

**CHRISTINE A. HAMORI, MD, FACS**

New Medical-Spa Treatment

**Tissue Contraction System**

ThermaCool TC from Thermage™ is now available for many non-surgical facial tightening applications. This FDA-approved procedure has been seen on *Oprah* and in many women's magazines, and is being called the "non-surgical face lift." It can eliminate the need for a brow lift, reduce jowl and neck laxity, tighten and lift skin around the eyes and significantly improve the lower facial areas. It uses a radio frequency system that causes thinned and flattened collagen to contract and tighten. Procedures are short with no recovery period and can last for an average of three years. **Learn more at [www.christinehamori.com](http://www.christinehamori.com).**

*Please call to schedule a Thermage consult.*

FACIALS

**Paprika Herbal Treatment**

Relax and escape the stresses of your life. This facial focuses on stimulating cellular repair and blood circulation while helping to increase metabolism. A blend of herbal extracts helps detoxify and improve acne problem skin.

1 hour \$95

**Oxygen Facial**

Oxygen is what helps your skin to look fresh and moist. This facial uses a special emulsion that forces oxygen into your skin and wipes away a dull complexion. This process helps increase circulation, allowing skin cells to function more effectively and achieve their proper balance.

1 hour \$95

**Rosacea Facial**

Targeting the complicated skin needs during menopausal years, this facial uses our line of B. Kamins products, with its most active ingredient being BioMaple Compound, derived from Canadian Maple trees and well known for its ability to increase smoothness, suppleness and elasticity, as well as ease redness associated with Rosacea, which is common in perimenopausal skin.

1 hour \$95

**Sensitive Skin Facial**

Designed to soothe and nourish sensitive, easily irritated skin, this facial reduces redness, resulting in an overall hydrated glow.

1 hour \$95

**Teen Facial**

A great introduction to facials for young teens to help keep their skin clean and blemish free. Gentle exfoliation is followed by a deep cleansing mask. Our trained aesthetician/nurse will supplement the facial with education on post-treatment care.

45 minutes \$75

**Acne Facial**

Developed specifically for deep-pore cleansing and eliminating the bacteria on the skin that cause acne. Our acne facial was developed as the perfect partner to follow our ClearLight acne treatment.

1 hour \$125

ACNE TREATMENTS

**Microdermabrasion**

In this simple painless procedure, a nurse or aesthetician uses a special wand that gently buffs and polishes your skin with aluminum hydroxide crystals to remove aging skin cells and fine lines. There is virtually no recovery time. For best results, plan on scheduling 5 to 6 treatments over a 2-month period.

45 minutes \$150  
Add Microdermabrasion to a chemical peel, photorejuvenation or a facial for \$75

**ClearLight Phototherapy**

This is a revolutionary, new in-office treatment that can clear mild to moderate inflammatory acne without side effects. ClearLight directs intense blue light to the treatment area to eliminate the bacteria that cause acne.

30 minutes starting at \$50  
Add ClearLight to any facial or peel for \$50

**Jessner's Peel**

Jessner's peel combines resorcinol, lactic acid and salicylic acid for greater exfoliation of the outer layers of skin cells. This can also be used to lighten areas of hyperpigmentation, sun-damaged skin and acne.

45 minutes \$100 1st layer  
\$40 additional layer

**Back Purifying Treatment**

This deep cleansing and exfoliation treatment reduces clogging and improves the overall appearance of the skin. A 60-minute procedure includes Clearlight treatment.

30 minutes \$75  
60 minutes w/ClearLight \$125

ANTI-AGING PEELS

**Glycolic Acid Peel**

Designed to smooth and retexturize mature, clogged or sun-damaged skin. This anti-aging treatment puts the emphasis on gentle exfoliation. You will experience a clearer, younger, more translucent look.

30 minutes Face or Chest 30% strength \$65  
40% strength \$75  
50% strength \$85  
Hands \$15

**Advanced Glycolic Peel**

Combines the use of microdermabrasion with glycolic acid for a deeper penetration.

1 hour \$175

**Jessner's Peel**

Jessner's peel combines resorcinol, lactic acid and salicylic acid for greater exfoliation of the outer layers of skin cells. This can also be used to lighten areas of hyperpigmentation, sun-damaged skin and acne.

45 minutes \$100 1st layer  
\$40 additional layer

## ANTI-AGING PEELS cont.

### Trichloroacetic Acid Peel (TCA)

This is one of the deeper, more aggressive treatments available. TCA peels are effective in treating acne scars, sundamaged skin and extreme hyperpigmentation and requires 7-10 days of recovery time. Requires consultation with physician.

*Starting at \$1,500*

## PHOTO REJUVENATION THERAPY

### IPL Photo Rejuvenation

This brand new technology, also known as facial rejuvenation, uses intense pulsed light (IPL) and is extremely effective in treating brown spots, sun spots, pigmented lesions, fine lines and wrinkles and rosacea. By promoting cell growth and enhancing collagen production, it leaves behind clearer, smoother, younger skin. This treatment is used to reduce sun spots on face, neck, chest and hands. *Package prices offered.*

Face	\$200
Neck	\$175
Chest	\$300
Hands	\$75

## LEVULAN KERASTICK THERAPY

### Sun Damaged Skin Treatment

For patients with Actinic Keratoses (those rough, scaly skin patches caused by sun exposure that can sometimes progress into skin cancers), a drug called Levulan ALA is applied topically to absorb into fast growing epidermal cells. Next a light source activates the Levulan ALA and targeted cells are destroyed. This new exciting treatment removes pre-cancerous lesions and leaves you with younger, smoother, healthier skin.

*Please call for complimentary consultation.*

### Acne Treatment

Levulan ALA is the new state-of-the-art treatment for eliminating acne. Tiny glands beneath the surface of the skin can become blocked and form a pimple. Levulan ALA combined with a light source, shrinks these glands and kills bacteria in your skin. The treatment is painless; you may experience redness similar to a mild sunburn up to 7 days after treatment. One to three treatments may be required.

*90 minutes Face, chest, scalp, hands, back or legs*

*Please call for complimentary consultation.*

## LASER TREATMENTS

### Spider Vein Removal

Spider veins of the thighs, calfs and ankles can now be treated several ways. Treatment options include sclerotherapy (the injection of a concentrated salt solution into the small veins to seal them) or laser ablation where a special laser (Apex 800) is used to seal the blood vessels.

*1 hour \$350*

## LASER TREATMENTS cont.

### Rosacea Treatment

Rosacea or broken capillaries of the face, nose and chin may be erased with our new Diolite 532 Laser. The treatment is performed by a Registered Nurse in our skin spa and takes approximately 30 minutes. A cool numbing gel is applied to the face prior to the laser treatment to reduce any pain.

*30 minutes \$300*

### Cherry Hemangiomas Removal

Cherry hemangiomas, or red spots, can be removed when treated with the Diolite 532 Laser. These unsightly spots usually occur on the chest and abdomen and virtually disappear after treatments.

*30 minutes \$300*

### Brown Spot Removal/Lightening

Dark skin lesions begin to develop over the face, chest as we get older. These unsightly pigmented lesions or seborrheic keratosis can be removed or lightened using laser treatment. Our registered nurse will evaluate your dark spots first then use the laser to gently eliminate or lessen the dark pigment.

*30 minutes \$300*

### Laser Hair Removal

This process drastically reduces hair of underarm, upper lip, cheek, bikini line, or back. We now have two laser technologies, including our new "light pulse" hair removal laser, allowing our nurse aesthetician to customize treatment plans for more hair types and densities.

*Please call for prices.*

## WAXING

In addition to laser hair removal, we also offer waxing.

*Brow Shaping \$20*

*Lip \$12*

## Gift Certificates Available

Give the gift of rejuvenation with a our skin spa gift certificate for *a la carte* services or for a specified dollar amount. Order by calling **781-934-2200**.
